The West Coast District Dental Association Fund

A donor advised fund administered through the Florida Dental Health Foundation

Mission Statement: The mission of the West Coast District Dental Association Fund is to generate and direct resources for charitable and educational oral health programs for the people of the West Coast District in the state of Florida.

The WCDDA Fund's objectives are to have resources available to:

- Support requests for student aid through grants and reward academic achievement with scholarships thereby increasing the number of dental hygiene, assistant, and laboratory technician graduates.
- To assist dental programs in recruitment activities and specific needs required to excel in the education of all students.
- To support the dental health education and prevention of dental diseases to all sectors of the public with a special focus on Access to Care programs.
- To recognize special requests from all entities of dentistry which enhance and promote the dental profession.

How do I contribute?

Public dental education, local programs (ancillary education), scholarships, grants and Project Select are all worthy components and need continued support at the local level. The WCDDA Fund grows due to support from the membership of the West Coast District Dental Association. Support comes from individual contributions and money raised by various WCDDA sponsored activities. Your participation in WCDDA Fund fundraising activities assures growth and longevity of the fund, provides a charitable outlet, and guarantees success of all events. Other avenues to contribute to the WCDDA Fund will be made available through direct marketing campaigns, the WCDDA Newsletter, and the WCDDA web site. All contributions must be clearly marked and designated to the WCDDA Fund. It is advised to contact your tax consultant to determine if your donation is tax deductible.

All contributions go directly to the WCDDA Fund with the exception of 5% designated to the Florida Dental Health Foundation to cover administrative costs. Funds distributed will go to local programs and students – “hometown” ventures. A contributor to the WCDDA Fund knows his/her money is being well spent within the West Coast District and will help to promote a positive image of dentistry to the public. A contributor can watch their component association's fund grow and prosper under sound leadership and see tangible end results.

The WCDDA Fund is focused on becoming a self-sufficient entity of the West Coast District Dental Association by means of charitable contributions and gifts. The WCDDA Fund will serve as a liaison between the dental community and various programs geared towards the betterment of dental education and the advancement of dental programs.

For more information on the WCDDA Fund visit the West Coast District Dental Association Web Site: www.wcdental.org or call (813)654-2500.

On-line Employment Service

Do Staffing Needs have you all tied up?

Looking for an Associate?

Ready to add another day of Hygiene?

How does it work?

Visit www.wcdental.org, click-on "professional side" and post positions available in your office.

Any visitor to the On-line Employment site will be able to view job postings to assist in their employment search.

To post a position available at your office, enter your ADA # and your last name. You will be prompted to the appropriate questions to post the opportunity. Information from dentists seeking associateships and dental practices for sale is also available.

Applications and resumes posted by office personnel (hygienists, assistants, office managers, potential associate) may be accessed by WCDDA members.

This is a free, no fee service.

**A service exclusively for
West Coast members.**

Mission Statement

Our association will serve the needs of our members and support their professional growth, encourage the improvement of the health of the public and promote the art and science of dentistry.
